2. Accept minutes of Dec. 4th.

3. Discussion: Richard Wahrlich reflected on his history with the original Master Plan - informed group of past involvement. Chair-Sanborn asked to make "Community Design" it's own sub-committee of Master Plan. Wahrlich stated it's up to the Planning Board to decide. Jason Farrell voices the value of the "Community Design" segment.

Paul Knapp asked how we can generate more interest in the Historic District. Peter Dzewaltowski, Interim City Planner spoke about our concern about proper guidelines to proceed. A template would be helpful. Colin asked Peter if the City had a current inventory list of Historic Resources. Also a large format City Map was requested.

Colin gave handouts for the committee to list items of historic interest that may be added to information on file.

Discussion of adding a SWOT plan was offered.
