January 30, 2014

**Minutes for the Airport Advisory Meeting of January 27, 2014
Approved 4/28/2014**

The meeting was called to order at 7:00 p.m. at the Claremont Municipal Airport by Chief Rick Bergeron. Also in attendance were board members Joe Osgood, Dave Eno, Roger Hamel, Steve Keen, Keith Raymond and Dave Carton.

The minutes of the October 28, 2013 meeting were distributed and reviewed. Those minutes were accepted as written by the board.

The board was advised that the new contract for the fixed based operators was being reviewed by legal and should be ready for signatures very soon.

The airport manager presented an explanation of storm damage that had occurred to the power line that supplies the hilltop rotary beacon. He also explained that the new pole had been set and the meter and main disconnect had been re-installed on the pole as well. It was still the hope of management that the power company will have the utility lines back in service by the weekend of February 1st.

Under new business, Roger Hamel stated that it appeared that Daniels Construction was preparing to remove some of the old steel on the Great Lakes property. Chief Bergeron did confirm that the entire structure was going to be dismantled and that negotiations between the company and the city would be taking place to determine proposed changes in the land lease arrangements.

An offer of questions and comments was entertained. Having none propose the board voted to adjourn at 7:23 p.m.

Respectfully,

Chief Richard Bergeron
