

**CONSERVATION COMMISSION  
SITE VISIT**

Tuesday, June 27, 2017 5:00 PM  
104 Lafayette Street, Claremont NH

**MINUTES  
Approved 8/17/2017**

**Members present:** Gary Dickerman, Steve Wood, Eileen Skowronski, Kim Gogan, Scott Magnuson (arrived at 5:45)

The Commissioners met with property owner, Tim Cross, to see the pond that Mr. Cross would like to dredge and to view the site of the proposed RV park. Mr. Cross said he would use a long-arm excavator to do the dredging. A road will have to be built for the excavator to reach the far side of the pond as no such road currently exists.

Mr. Cross also showed the Commission the other section of the oxbow to which disturbed wildlife could re-locate while the smaller pond is being dredged. Mr. Cross said he would selectively cut the existing tree stand to develop the site. He said he would not clear-cut it.

Campers will access the property from Lafayette Street.

Mr. Cross said he hoped the Commission would provide him with a letter of support at the appropriate time.

The site visit concluded at 6:15 PM.

**Respectfully submitted,**

*de Forest Bearse*
