FOR IMMEDIATE RELEASE  
March 20, 2020

### **CLAREMONT STRONG**

**CLAREMONT, NH** – Please support each other. Watch out for others in your neighborhood, call someone you know is alone, let local volunteers know if someone needs something or you have a concern. Most of us have never experienced such life altering changes in how we live and work. We will get through this as a community working together.

If you want a book, a can of paint or something for a DIY project, please call your local businesses to see if they might be open and able to help you out. Many of your local businesses are trying to find new ways to provide you service so make sure and give them a call. Find ways to support them if you can.

All of the city parks are open. We ask that you enjoy them but please adhere to social distancing protocols.

The current list of restaurants offering take out or delivery is available at <http://www.claremonth.com/residents/COVID-19.aspx>.

The City has created a COVID-19 page at <http://www.claremonth.com/residents/COVID-19.aspx>. We will be listing cancellations of events as they come in as well as state and federal government information.

Information from the White River VA Medical Center for Veterans having flu like symptoms is available at <https://www.whiteriver.va.gov/emergency/index.asp>.

If you have a specific question about the virus, or if you would like more information, please visit the DHHS website at <https://www.dhhs.nh.gov/dphs/cdcs/2019-ncov.htm> or the CDC website at <https://www.cdc.gov/coronavirus/2019-ncov/index.html>. You may also call 211 to ask questions regarding COVID-19 or the State of New Hampshire's response to this outbreak.
