

New Hampshire Broadband Mapping and Planning Program: DSL Service Availability

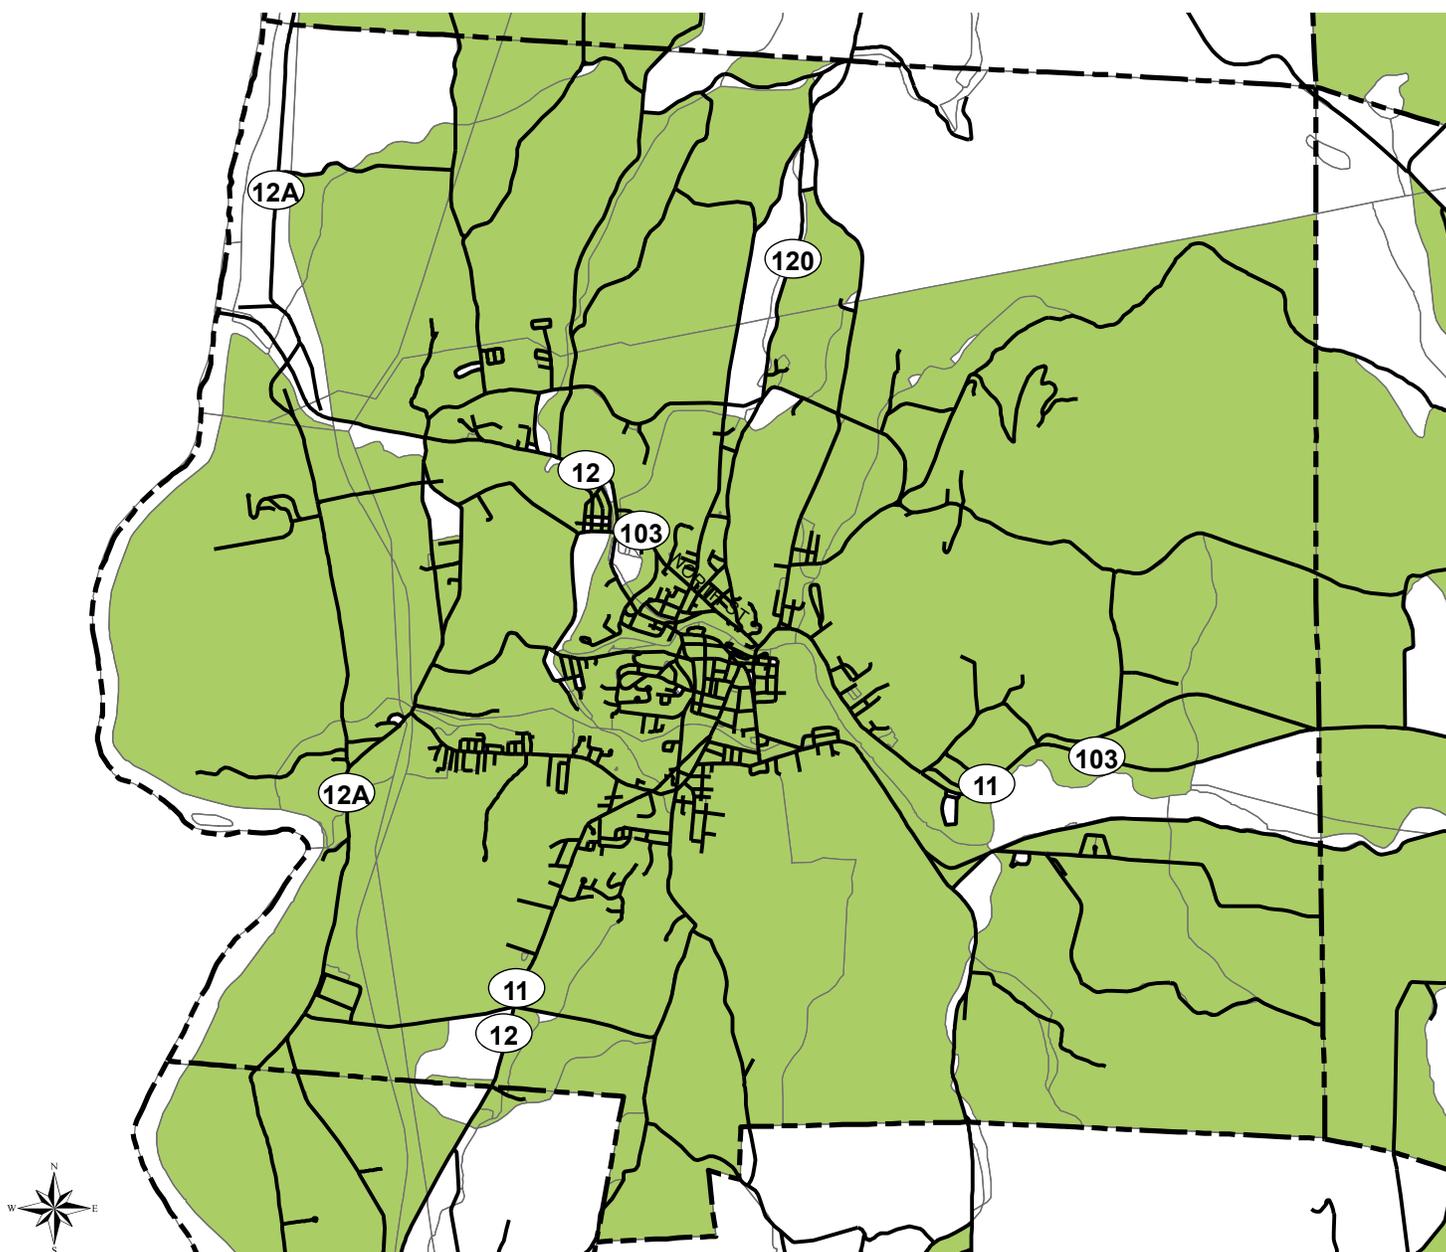

Map Key

- Roads
- No DSL Service
- DSL Service Available

This map displays broadband access information submitted* to the NH Broadband Mapping and Planning Program (NHBMPP) as of December 31, 2010.

All data are aggregated and displayed at the census block level. A census block is mapped as "served" if service is delivered to any part of the block.

Broadband is defined as access that is at least **786 kbps downstream** and **200 kbps upstream**.

0 0.5 1 1.5 2 Miles

Upper Valley Lake Sunapee
Regional Planning Commission

* Data has not been received from all providers offering broadband service in New Hampshire. The NHBMPP has received data from 31 of the roughly 50 providers that offer broadband service in the state.
