Dear Claremont City Council,

Jay Lockwood, Ward 1

I am writing today about the Pleasant Street revitalization project. I am in support of the project, and believe that a modernized downtown will tie together our wonderful - but, fragmented - public spaces.

Arrowhead  
Monadnock  
Broad St. Park  
Visitors Center  
Bobby Woodman Trail

Imagine staying at the Common Man Inn, and being able to walk to and experience all of these great local landmarks. Walking through a pedestrian-friendly city center with wide sidewalks and places to sit and visit. Checking out the great restaurants, shopping at the local businesses, maybe experiencing the new float center and other destination retail. Buying a day pass at our Community Center, watching a show at Amplified Arts, West Claremont Center for Music and the Arts, or the Opera House, and even attending an outdoor event right on Pleasant Street.

Rethink Pleasant Street will help attract new people, and support the people here that make Claremont great!

Thank you for reading this, and please consider voting yes.  
Jay Lockwood
